

26th / 28th Street - Protected Bikeway

Upcoming Public Meeting

The Department of Public Works will hold a meeting to share information about the project, answer questions, and get feedback from the community.

When:

Tuesday, February 28, 2017 at 6:00 p.m. Presentation begins at 6:30 p.m.

Where:

SpringHouse Ministry Center
610 W. 28th Street
Minneapolis, MN 55408

PROJECT BACKGROUND

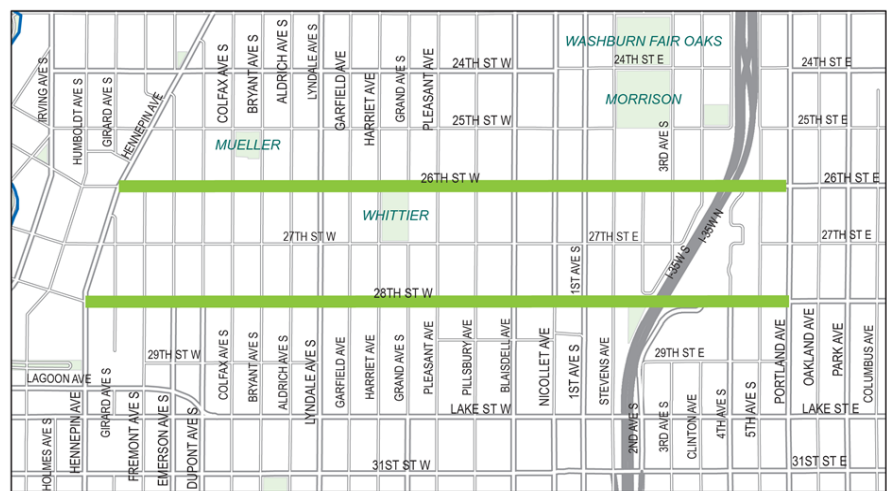

The City of Minneapolis proposes to install the second phase of the approximately 1.4 mile (2.9 miles total) one-way 26th Street E/W and 28th Street E/W Protected Bikeway between Portland Ave S and Hennepin Ave S.

The first phase of the project was completed in 2015 and extended from Hiawatha Ave to Portland Ave S. These corridors were identified in the update to the [Minneapolis Bicycle Master Plan](#) (2015) as priority locations for protected bikeways. The extension of the protected bikeway from Portland Ave S to Hennepin Ave S seeks to meet the modal priorities outlined in the City's [Complete Streets Policy](#) (2016) which identifies transportation networks and prioritizes the movement of people walking and biking in Minneapolis. The installation of a protected bikeway aims to enhance the safety, comfort, and general efficiency of travel for all people who walk or bike in this area.

The proposed project is scheduled to occur during the 2017 construction season and will consist of signage and striping improvements to the roadway. City staff is building off of the concepts that were developed and presented to the community in 2015. Staff is seeking additional community feedback to help further inform as well as to guide and refine design concepts.
